WA/2019/1213	Erection of single storey extension.	61 GLEN CLOSE, HINDHEAD GU26 6QF	No objection

WA/2019/1135 - THE HEIGHTS, 5 HILL ROAD, HASLEMERE GU27 2JP

The committee agreed to **object** to this application on the following grounds:

- The development would result in loss of amenity for the occupiers of the neighbouring properties being overbearing in appearance and resulting in overlooking the properties situated on the lower side of the road contrary to policy TD1 of the Local Plan Part 1 2018, and retained policies D1 & D4 of the Local Plan 2002
- The proposed development fails to maintain the character and distinctiveness of the area and does not consider the impact on the Haslemere Hillside and Conservation Area contrary to retained policies D1, D4 and BE4 of the of the Local Plan 2002 and TD1 of the Local Plan Part 1 2018
- The dwellings sit in front of the existing building line and is out of keeping with the street scene contrary to policy TD1 of the Local Plan Part 1 2018, and retained policies D1 & D4 of the Local Plan 2002
- The tandem parking provision will affect users of Hill Road and will almost inevitably result in occupiers of these four three-bedroom properties parking on the road in front of the houses.
- The committee also wanted it recorded in the minutes that it disliked split applications like this and WA/2019/1026. It felt that applicants should not be able to put multiple proposals forward at the same time as each application had to be reviewed on its own merits and the wider planning picture could not be considered.

WA/2019/1101 LAND AT CROFTS, 28 PETWORTH ROAD, HASLEMERE GU27 2HR

The committee agreed to **object** to this application on the following grounds:

- The development constitutes overdevelopment of a site that sits in a Conservation Area contrary to retained policy HE8 of LP 2002 and HA1 of the LPP1 2018;
- The proposed development will result in loss of amenity for neighbouring occupiers contrary to retained policies D1 & D4 of LP 2002 and policy TD1 of LPP1 2018;
- The proposed development will have an adverse effect on the safety of road users and pedestrians on both the Petworth Road and Collards Lane contrary to retained policies D1 & D4 of LP 2002.
Collards Lane is a single narrow private track, which already suffers from heavy use. It has a narrow visibility splay onto the Petworth Road. Anecdotally, cars turning into Collards Lane from Petworth Road are regularly seen reversing back on to the Petworth Road because cars are seeking to exit Collards Lane. Similarly, cars have to reverse back down Collards Lane to allow traffic to enter the lane. There is a busy vets practice which has multiple visitors coming and going during the working days;
- The committee considers the design and materials proposed are not in keeping with the Haslemere Design Statement or Conservation Area contrary to retained policy HE8 of LP 2002 and HA1 of the LPP1 2018; and
- It is out of keeping with the area and fails to preserve or enhance the character of the Conservation Area contrary to retained policy HE8 of LP 2002 and HA1 of the LPP1 2018

WA/2019/1124 18 CHERRY TREE AVENUE, HASLEMERE GU27 1JW

Following discussion, the committee with two abstentions and two against the proposal, did not offer an objection to the application.

The committee was informed that the applicant had apparently received verbal go ahead for the building from Waverley Borough Council from the outset. There was concern that the building was too big for the site and close to the neighbouring boundary. However, it was felt the view from the street was not intrusive and now that the roof had been lowered and removed from the veranda it was a more acceptable development.

Action: The Deputy Town Clerk to contact WBC about the verbal approval and contact Thames Water to enquire whether they had given approval for the plumbing to be connected to the mains.

WA/2019/1203 - 3 ROYAL PARADE, TILFORD ROAD, HINDHEAD GU26 6TD

The committee agreed to **object** to this application on the following grounds:

- The parking proposed at the rear appears to be cramped and completely unworkable. It is perceived that cars will use the existing parking at the front of Royal Parade which is currently used by staff and shoppers and already stretched;
- Traffic safety will be compromised by cars reversing from the tandem parking spaces onto the access lane and the increased levels of traffic are incompatible with the area contrary to retained policies D1 & D4 of the Local Plan 2002;
- The development amounts to overdevelopment of the site contrary to saved policies D1 & D4 of Local Plan 2002 and policy TD1 of the new Local Plan Part 1 2018;
- The development and design is of poor quality; and
- There is a lack of amenity space and privacy for the future occupiers and loss of amenity space and privacy for the neighbours contrary to saved policies D1 & D4 of Local Plan 2002 and policy TD1 of the new Local Plan Part 1 2018
